PROFILE SUMMARY

As a dedicated and quick learner with a strong interest in problem-solving, I bring expertise in critical thinking, teamwork, and proficiency in the MERN (MongoDB, Express.js, React.js, Node.js) stack. Specializing as a backend developer, I also possess frontend skills, particularly in developing React applications. My commitment to continuous learning and adaptability ensures a proactive approach to addressing challenges and contributing effectively to collaborative projects.

EDUCATION HISTORY

Graduation

Course	B.Sc(Maths)
College	VMOU
Year of Passing	2024

Class XII

Board	CBSE
Medium	English
Year of Passing	2020
Grade	75-79.9%

Class X

Board	CBSE
Medium	English
Year of Passing	2018
Grade	70-74.9%

PROJECTS

Upwan, 3 Weeks

Contributed to the development of Upwan, an innovative e-commerce platform specializing in plant sales. Leveraged technical skills to implement features such as seamless plant purchases, personalized plant recommendations based on user preferences, and a cutting-edge 'Find by Photo' functionality. Enhanced user experience by incorporating a user-friendly cart system for effortless plant selection and checkout.

Personal Portfolio, 6 Days

This portfolio website is my first venture into TypeScript alongside React. While optimizing performance wasn't the sole focus, utilizing TypeScript's type annotations and understanding its core principles helped improve the code's maintainability. This makes the codebase easier to comprehend and manage, laying a solid foundation for future modifications.
