ABHAY SINGH

3 years | .Net Developer

abhaysengh@gmail.com ,Cont: 9026353811,7755046351

Summary

Efficient, detail-oriented .NET developer with over three years of experience in software development. Strong Experience in .Net Development with various domains including ERP Software. Worked on HTML5, CSS3, Boostrap5, Jquery, C#, Asp.Net Core 3.1, Asp.Net MVC, Entity Framework6, Restful API, OOPS concepts, MSSQL Database, Views, Stored Procedure (Dynamic Query), IDE Visual Studio 2022. Well-versed in .NET Core and building back-end web applications.

- ❖ Strong Experience in ERP Software Development (.Net Core, C#).
- ❖ Experience in working with remote data via Web Services.
- ❖ Good knowledge on Web Applications.
- ❖ Experience of Software Development Life Cycle (SDLC).
- ❖ Experience on latest .Net Framework (3/3.5/4/4.5/6/Core 1.0) with N-tier Architecture model and design patterns.
- ❖ Experience with **JQuery, JSON** client side light weight programming language skills.
- ❖ Experience with UI skills like **HTML, CSS, JavaScript, JQuery and AJAX**
- ❖ Expertise in ASP.Net, ASP.NET MVC, ADO.NET, ASP.NET Web Services.
- ❖ Proficient in Data Analysis, Design and Data Modeling using **LINQ** (LINQ to SQL, LINQ to XML), Entity Framework, ADO.NET and T-SQL in developing Data Access Layer, writing SQL Queries, Stored Procedures and Defined Functions.
- ❖ Good experience in **MS SQL Server 2008/2012/2016/2018**.
- ❖ Hands-on experience in creating and modifying reports with reporting tools like **Crystal Reports**
- ❖ Self-motivated, able to set effective priorities to achieve **immediate** and **Long-term goals** and meet operational deadlines.

Professional Qualifications

Degree / Certification	University / Institute
B.tech (CSE)	AKTU
Diploma (CSE)	BTEUP
Intermediate (PCM)	UP BOARD

Technical Skills

Languages	C,C#,MVC,.Net Core
Database	MS SQL
Web Services	Rest API
Version Control	Git, GitHub
IDE	Visual Studio 2019, 2022
Operating Systems	Windows 7/8/10/11

Project Experience

Project Name	**Customised Web based ERP for Manufacturing Companies**
Description	It usually has a common user interface across components or applications and supports them in real-time. With the help of ERP Software, different departments can collect and collate data easily and prepare several reports as per business requirements. It plays the role of an effective communication tool that shares information between different departments, assists people with daily activities, and helps them in preparing reports quickly and with more accuracy. **The solution comprises of following modules:** 1. Sample 2. Raw Material 3. Finished Goods / Costing 4. Inventory & Store 5. Purchase 6. Production & QC 7. Sales 8. Packing 9. Invoice & Documentation 10. Job Work

| | 11. Human Resource

This Web based ERP has been customized and implemented in different types of industries involved in any type of manufacturing of leather bags, leather shoes, leather garments, saddlery, raxine, engineering products, hardware, chemical, medicine, etc. |
|---|---|
| **Responsibilities** | I have been a part of the team in customizing and implementing the ERP in different type of Industries.

I have worked for 6 different clients.

I worked on implementing new modules, features, creating new reports, designing reports in crystal reports and optimizing performance as and when required. |
Tech Stack	.Net Core with C#, MS SQL, Crystal Report
Team Size	5
Duration	2.5 years and above
Total Projects	8
