PROFILE

Business Intelligence Analyst with a focus on informing and driving product development decisions. Proficient in SQL, Python, and data visualisation tools. Proven track record of collaborating with cross-functional teams and using data to prioritise and iterate on product strategies. Seeking a role to contribute to data-driven decision-making.

TECHNICAL SKILLS

- SQL
- Periscope
- Tableau
- Python
- Power BI

EDUCATION

B.Tech - Electronics & Communications Engineering
Amrita University
2019 – 2023 | Kerala, India

PROFESSIONAL EXPERIENCE

Aspire FT

Business Intelligence Intern

04/2023 – present

- Developed dashboards and tracked key metrics, uncovering emerging trends.
- Collaborated with product teams, utilizing data to inform decision-making.
- Analysed potential fraud and malpractice cases to enhance operational integrity.
- Tools: Periscope, SQL, Tableau

PROJECTS

Web Scraper

Developed an automated email-responsive price scraper using Python (Selenium, Pywin32) to efficiently compile and compare prices from various sources.

Cardiovascular Risk Analysis using ML

Used a range of ML algorithms to predict cardiovascular disease risks from patient health records, enhancing proactive healthcare strategies.

PUBLICATIONS

Predictive Analysis from Patient Health Records Using Machine Learning

2023

With the help of advanced machine learning techniques, we analysed patient health data to predict the likelihood of Cardiovascular Diseases. The developed algorithm harnessed feature selection and ensemble techniques, yielding compelling results with an exceptional accuracy rate of 90.24 percent.

COURSES

The Business Intelligence Analyst Course

Power BI Desktop for Business Intelligence
