MANSI VERMA

UI, Graphic Designer

PROFILE

Hello, my name is Mansi Verma. I started my career as a graphic designer, but as I progressed in the industry, I developed a strong interest in UI/UX design. I graduated from Arena Animation, and I'm familiar with all aspects of the animation industry, including graphics, 2D, 3D, video editing, wireframing, and research. While I'm proficient in all these areas, my true passion lies in UI/UX, graphics, and video editing. When I'm not working, my favorite hobby is traveling the world.

WORK EXPERIENCE

Neostox
2021–2024
I work as a UI and graphic designer at this company. My UI responsibilities include the overall software interface, while my graphics responsibilities include creative and social media posts. I've designed many projects here at Neostox, including Stoxtalk, Neostox, and Neotalk. Currently, only the Neostox website is live.

Lexx Digital
2019–2021
I work here as a graphic designer, and started working on UI and UX design projects. I create social media posts, design websites, design proofs of concept (POCs), design dashboards, create posters, and design e-cards.
