## SUMMARY

Enthusiastic and detail-oriented web developer with 8 months of immersive training in **Frontend technologies**, specialising in the **MERN stack**. Possessing a strong foundation in problem-solving. Eager to apply my knowledge to real-world challenges, I bring a proactive approach and a commitment to delivering high-quality solutions in the fast paced world of web development.

---

## SKILLS

- HTML
- CSS
- Javascript
- React js
- Github
- Socket io
- React Native

---

## EDUCATION

### **PRODUCT ENGINEERING**

**2023**

School of Accelerated Learning  
ONLINE

### **BACHELOR OF SCIENCE**

**2019-2022**

RAJASTHAN UNIVERSITY  
JAIPUR, RAJASTHAN

---

## EXPERIENCE

### **Intern At Experts4U**

**JAN 2024 - Present**

- Experienced in developing user-friendly interfaces using React Native components and libraries.
- Proficient in integrating APIs to fetch data and implement dynamic functionality.
- Familiar with Git for version control, enabling effective collaboration with team members.
- Proven track record of delivering high-quality React Native projects during internship at Experts4U.
- Effective communicator and team player, with a collaborative approach to problem-solving.

## BOOTCAMP EXPERIENCE

TRAINING – SOAL Product Engineering Program  
ONLINE

2023

- Completed an intensive training program in **Frontend Development**, focusing on the **MERN** (MongoDB, Express.js, React.js, Node.js) stack.
  - Acquired hands-on experience in cross-platform mobile application development using **React Native**.
- 

## CERTIFICATE

- Product Engineering Certificate (SOAL)
  - Frontend Developer – HTML-CSS, React Certificate (FounditSkylst)
- 

## PROJECTS

### **We-Meet** ( [Click to see LIVE](#))

- It is basically a one on one chat or group chat and meeting app.
- In this app we can schedule meetings and can see another person's free hours also.
- The frontend is built using **React**, incorporating state management through **Redux** Toolkit for efficient data handling. The backend, powered by **Express** and **Node**, utilises **Socket.IO** for real-time communication, enabling seamless collaboration among users.
- Overall, the platform provides an intuitive and dynamic environment for users to communicate and can schedule meetings.

Techstack – React, Redux Toolkit, MUI, Express, Node, Mongoose, React Router, Socket Io.

### **Bakery website**([Click to see LIVE](#))

- Done freelancing work for a bakery shop.
- For frontend I use HTML-CSS-JS and all the pages and designs are only in CSS and HTML.
- This is a fully responsive website.

Techstack - HTML-JS-CSS

### **E-commerce Project**([Click to see LIVE](#))

- The project is a user-friendly platform designed for shopping enthusiasts to easily search for their favourite brands.
- Developed using **React** and **JavaScript**, the platform integrates the API. This combination of technologies ensures a responsive experience, allowing users to efficiently discover and explore a wide range of brands on the platform.

Techstack – React, Framer Motion, React Router.
