Intermediate
Completed in 2017

About Me

Motivated and detail-oriented iOS developer with [1 years] of experience in designing, developing, and maintaining high-quality mobile applications for iOS devices. Proficient in Swift and Objective-C, I have a strong foundation in software engineering principles and a passion for creating intuitive and visually appealing user experiences.

Professional Experience

Inmortal Technologies Co. | iOS Developer
2023 – Present

Key responsibilities:

- Design, develop, test, and deploy iOS applications using programming languages such as Swift or Objective-C and development frameworks like UIKit
- Implement new features and functionalities based on project requirements, UI/UX designs, and user stories, ensuring high-quality code
- Identify, troubleshoot, and resolve bugs, performance issues, and compatibility issues across different iOS devices and OS versions. Maintain and update existing applications as needed.
- Integrate with backend services, RESTful APIs, third-party libraries, and SDKs to access data, perform network operations, and leverage additional functionalities within iOS applications.
