## ACADEMIC PROJECTS

---

- **Payroll Management System:** Goal of the project is to build a proper salary calculation system with basic salary, bonuses, fines and extra payments. Employees can view there salary status of the current month by logging in the system. Employee who possesses admin role can add employee and his/her details, rank and designation and add rankwise basic salary.
- **Tic Tac Toe :** Tic-tac-toe is a game where two players X and O fill the hash ( ) shaped box (consist of two vertical lines crossing two horizontal lines) with their alternate turns. The player who first fills the box with 3Xs or 3Os in a horizontal, vertical, or diagonal manner will win the game.

In some cases, when none of the players succeeds in filling the boxes horizontally, vertically, or diagonally with 3Xs or 3Os, then the game will be considered to be a draw.
