

# Nikhil Yadav

## Work Experience

**Planet Spark Academic Counselor** 8/2023 5/2024

- Promoted and sold English language courses to a diverse age group ranging from 9 to 50 years old.
- Conducted initial assessments to evaluate students' English proficiency and categorize them into appropriate learning batches (Beginner, Intermediate, Advanced) based on their scores.
- Developed customized learning plans to meet the needs of each student, enhancing their language skills and improving course satisfaction.
- Engaged with students and their families to explain course offerings, answer questions, and provide guidance on suitable programs.
- Collaborated with the educational team to ensure effective batch placements and optimize student learning experiences.
- Monitored and analyzed student progress to provide feedback and suggest additional resources or adjustments to learning plans as needed.

## Projects

### Pharmacy Management System

Pharmacy management system has interface for two types of users: Salesman and Admin. Salesman can view the catalog and manage physical inventory using that catalog. An admin can add salesman and add medicines in the catalog.

Tools and Technologies used: HTML, CSS, JavaScript, NodeJs, ExpressJs, JQuery

### Online Food Delivery Website

Created an online food delivery website where users can view available restaurants and order food from any remote location. Also created a restaurant side panel, where restaurant owners can see the ordered food.

Tools and Technologies used: HTML, CSS, JavaScript, PHP, MySQL.
