Summary

As an aspiring Full-stack Software Developer, my career objective is to achieve success in the field of software development. I am dedicated to continuously acquiring knowledge and honing my skills to provide innovative solutions to people and industries. With a passion for problem-solving, I aim to create user-friendly web applications that address real-world challenges. My goal is to be a valuable asset to an organization that fosters growth and offers opportunities to contribute to cutting-edge projects.

Professional Experience

Full Stack Developer ([DataNova](#)) **Noida** 03/2024 - Present

- Currently working in .Net Framework, utilizing C to develop cross-platform applications.
- Proficient in implementing the MVVM(Model-View-ViewModel) architecture to enhance code organization and maintainability.

Full Stack Developer Intern ([CodeQuotient](#)) **Chandigarh** 07/2023 - 12/2023

- During my internship, I gained hands-on experience in web development, acquiring skills and collaborating with experienced mentors.
- Full-Stack Developer using the MERN Stack (MongoDB, HTML, CSS, JavaScript, Express.js, React.js, Node.js)
- Created the Todo App, Chat App, and Ticket Management System.

Intern Trainee ([NASSCOM-Qmansys Infosolutions](#)) **Ghaziabad** 03/2023 - 12/2023

- As an intern at Nasscom Qmansys Infosolution, I actively participate in project planning, development, and implementation process in the fields of (IOT).
- I collaborate with cross-functional teams, contributing my innovative ideas and insight to solve complex problems and Deliver high quality solutions in IOT Technologies.

Projects

Ticket Management System ([GitHub Link](#))

- Our Ticket Management System leverages cutting-edge technologies to provide a streamlined and efficient platform for users, administrators, and resolvers and facilitate the seamless handling of user queries, ticket raising, and issue resolution.
- Ensuring a smooth communication flow through the integration of Socket.io for real-time chat. such as admin dashboards and file upload capabilities, ensuring scalability
- Technologies Used: Node JS, Express JS, JavaScript, Mongo DB, HTML, CSS, Multer, EJS, Socket Io

E-Commerce ([GitHub Link](#))

- Designed and developed E-commerce website using HTML, CSS, Tailwind CSS, React, Redux, and Context API.
- Leveraged Firebase for secure data storage, ensuring scalability and reliability.
- Empowered administrators with the ability to add, delete, and manage data effortlessly.
- Integrated payment gateway support for seamless transactions and authentication and authorization features to enhance security.

"To-do" App ([GitHub Link](#))

- The concept used in this project allows any user can Perform Create Todo, delete Todo, edit todo, also provides Authentication, Authorization and use Database to store data.
- Technologies Used: Node JS, Express JS, JavaScript, Mongo DB, HTML, CSS

Certifications

- Certification Of Excellence For Top Performer in Java (7 Dec,2021 - 28 Feb,2022) - [Coding Ninja](#)
- IOT Workshop by IIT Varanasi(Dec. 2022) - [Innovians Technologies](#)

Education

B.Tech in Computer Science *RKGIT*

Ghaziabad 2020-Present

Score: 8.1 SGPA

Intermediate *Imperial International School*

Najibabad 4/2020

Score: 82%

High School *Krsit Jayanti School*

Najibabad 4/2018

Score: 74.6%

Skills

- **Languages :** Java, SQL, JavaScript, HTML
- **Framework:** Node.js, Express.js, Tailwind, Bootstrap
- **Libraries:** React.js, Redux, React Router
- **Database:** Project (MongoDB, MySQL)
- **Dev Tools:** Vs Code, Android Studio, GitHub, Git Bash, Figma
- **Soft Skills:** Problem Solving Critical Thinking , Project Management Organization Teamwork, Active Listening, and Time Management
