PROFESSIONAL SUMMARY

I am a .NET Developer with 2+ years of experience in developing and designing web applications. I have experience working with both front-end and back-end development, in addition to database development and management. My most significant achievement is working on a project which received the highest customer satisfaction rating, and I have been praised for my ability to work efficiently and effectively with any team or individual. I possess strong analytical skills, problem solving skills, communication skills and an understanding of coding languages like HTML, CSS and JavaScript. Additionally, I am well versed in other .NET programming languages such as C#, ASP.NET, ADO.NET, Entity Framework and LINQ. Above all else, I have a passion for learning new technologies and staying up to date on industry trends.

EXPERIENCE

✦ March 2022 - October 2022

Software Developer Intern

Dynamic Edge Consultants Pvt Ltd / India, Lucknow

Domain- Retails , Hospital , Inventory etc...

Environment -

- **Programming Languages:** C#, JavaScript

- **Frameworks & Libraries:** jQuery

- **Frameworks & Tools:** Visual Studio .NET 4, 4.5, ADO.NET

- **Databases:** SQL Server 2008

- **Web Technologies:** HTML, CSS, JSON, AJAX

Web Applications/Websites:

- **Inventory Management System:** Spearheaded the development of a robust inventory management system, optimizing stock control and streamlining procurement processes for efficient inventory management.

- **Student Detail Management Portal:** Designed and implemented a comprehensive student detail management system, ensuring seamless organization and accessibility of student information for educational institutions.

- **Hospital Management Platform:** Led the creation of a multifaceted hospital management solution, facilitating smooth operations, patient information management, and administrative tasks within healthcare settings.

Windows Applications:

- **Vendor Entry System (Shahilibas):** Engineered a vendor entry application, enhancing Shahilibas' vendor management capabilities, thereby optimizing procurement processes and vendor relationships.

- **Order Delivery Module (Bhasin Brother):** Implemented a new module in Bhasin Brother's system to streamline order delivery processes, ensuring efficient and prompt delivery management.

- **Guest Billing Module (Lucknow Golf Club):** Integrated a guest billing module into the existing system at Lucknow Golf Club, simplifying billing procedures and improving customer service

November 2022 - February 2023

Software Development Engineering Trainee

Craft Silicon Asia / India, Ahemdabad

Domain- Banking & Vehicle Loan

Environment:

- **Programming Languages:** C#, JavaScript

- **Frameworks & Libraries**: ASP.NET Core 6, ASP.NET MVC Core, .NET Core 6, jQuery, Kendo UI

- **Frameworks & Tools:** ASP.NET Framework 4.5, Windows Forms

- **Web Technologies:** RESTful Web API

- **Databases:** SQL Server 2019

Notable Tasks:

* Developed a Product Management Configuration Module: Spearheaded the development of a comprehensive module for product management, enhancing functionality and streamlining processes within the application.

* Developed a License Key Management Module: Engineered a module for managing license keys within a Laser Reading Application, contributing to improved security and management of software licenses.

February 2023 - Now

Dot Net Developer

Youth4Work / India, Noida

Domain- EdTech and Job Placement Platform

Environment:

- **Programming Languages:** C#, JavaScript

- **Frameworks & Libraries**: ASP.NET MVC , jQuery

- **Frameworks & Tools:** ASP.NET Framework 4.8,

- **Web Technologies:** RESTful Web API, HTML,CSS,XML,JSON, AJAX

- **Databases:** SQL Server 2019

 Achievements/Tasks:

* Engaged in a comprehensive learning project focused on maintenance and new development tasks within Youth4work Learning Pvt Ltd.

* Contributed to the enhancement and upkeep of multiple platforms including:

- www.youth4work.com

- www.prep.youth4work.com

- www.university.youth4work.com
- www.cos.youth4work.com

 * Successfully integrated and implemented the PhonePe payment gateway into the company's platform, enhancing the user experience and enabling seamless transactions.

* Successfully integrated Mailchimp's API into the company's marketing platform, enabling streamlined email marketing campaigns and improved user engagement.

 * Successfully introduced a new subscription plan, enhancing revenue streams and providing users with more options for premium content.

 * Conducted regular database maintenance, backups, and data integrity checks, ensuring high availability and reliability of critical business data.

* Identified and resolved critical cybersecurity vulnerabilities, ensuring the safety and privacy of user data and platform integrity.

* Led the creation of API solutions to streamline data sharing and integration with partner institutions, improving information exchange efficiency.

EDUCATION

2013 - 2014

High School

New Standard Public School / India, Raebareli

Percentage- 84.6%

2015 - 2016

Intermediate

New Standard Public School / India, Raebareli

Percentage- 86.2%

2016 - 2020

Bachelor of Science (BSc Computer Science)

Integral University / India, Lucknow

Percentage- 62.9%

* Project- Created a Library Management System

2020 - 2022

Master Of Computer Applications

Feroze Gandhi Institute Of Engineering And Technology / India, Raebareli

Percentage- 84.1%

* Projects Minor Project- Created a module of covid tracker using python Tkinter GUI toolkit.

* Major Project- Created a web news portal using [asp.net](asp.net) .

PERSONAL CLIENT

✦ May 2024 - May 2024

Personal Project: Restaurant Feedback Application

India, Raebareli

Description: Developed a full-stack web application to collect and manage customer feedback for restaurants using .NET Core 7. The application features a user-friendly interface for customers to submit feedback and an admin dashboard for restaurant owners to review and analyze feedback data. Additionally, the application includes QR code scanning functionality, allowing users to quickly access the feedback form by scanning a QR code placed within the restaurant premises.

Key Contributions:

- Designed and developed the frontend using HTML, CSS, and JavaScript, focusing on intuitive user experience and responsiveness.

- Implemented backend functionalities with .NET Core 7, utilizing ASP.NET Core and Entity Framework Core for data storage, authentication, and API endpoints.

- Leveraged SQL Server as the database to store feedback data securely and efficiently.

- Implemented QR code scanning functionality using libraries like zxing-net and QRCoder, enabling seamless redirection to the feedback form upon scanning.

Outcome: This project was developed for a personal client in the restaurant industry, allowing them to streamline their feedback collection process and gain valuable insights into customer satisfaction. The inclusion of QR code scanning functionality has improved user engagement and accessibility, enhancing the overall customer experience.

SELF PROJECTS

✦ -

Projects

1.Employee Management System (ASP.NET Core)

- Developed an employee management system using ASP.NET Core.

- Integrated API for external data retrieval.

- Utilized SQL Server for backend data storage.

2.Pincode Management (ASP.NET MVC)

- Designed and implemented a pincode management system using ASP.NET MVC framework.

- Integrated database functionalities using ADO.NET.

- Ensured user-friendly interface for easy management.

3.Chat Application (SignalR)

- Built a real-time chat application using SignalR technology.

- Implemented features for seamless communication between users.

- Ensured scalability and performance optimization.

4.Small JavaScript and jQuery Projects

- Completed various small-scale projects using JavaScript and jQuery.

- Demonstrated proficiency in front-end development techniques.

- Implemented interactive elements and dynamic functionalities.

5.Self-Project Portfolio Website:

- Developed and designed a portfolio website showcasing various self-projects and professional experiences.

- Implemented features such as project showcases, services offered, and an about me section.

- Ensured responsiveness and accessibility across multiple devices and browsers.
