Internships

[Syngenta Private Limited, Medchel] Monitoring on packing material wastage reduction
[April 2022 – May 2022]
[I have explored and learned in depth about the drying, processing, and packing areas where maize and rice are employed during that time, as well as monitored packaging material on the factors that are generating waste of seed pouches during packing.]

[Nuziveedu seeds private limited, Medchel] [Supply ChainManagement]
[June 2023 – July 2023]
[I have gained valuable experience and knowledge in the areas of cotton ginning, processing, field emergence testing, grow-out test, and cold storage and had hands on experience in seed technology laboratory on both field and vegetable crops.]
