<b>Projects</b>			
<b>Name of Project</b>	<b>Learning</b>		<b>Year</b>
Waste Management through Garbage Café in reference to Agra city	Objectives: - Contribution of Garbage Café (waste management) in Sustainable development - To access the business opportunity related to Garbage Cafe Garbage Café gives people a meal full of Nutritious food in exchange for plastic waste so in this way it contributes in sustainable development. The plastic collected at the café go towards road construction and can also use to make bricks, tiles, fabric from plastic, recycling etc. this will generate employment opportunity.		2020
Environmental impact of Petha Industry with special reference to Agra city	Objectives: - Waste Management situation of Petha Industry in Agra - Environmental impact of Petha industry - Model for the solution of poor waste management After visiting of Petha Manufacturing unit, I found that Waste management of Petha Industry is in good position. Local government focuses on transportation, collection and dumping of garbage, compulsion of using green gas in making Petha, is also a very good steps in environment protection taking by government. For maintaing the waste management system we all need to a model in which all parties; Central, State and Local government, Public Combine each other to participate in waste management system with enthusiastic manner.		2019
