### **Professional Summary**

Experienced Data Analyst with a proven track record of two years in leveraging PowerBI, SQL, Excel, and Python to extract actionable insights from complex datasets. Adept at translating business requirements into data-driven solutions, I possess a strong analytical mindset and attention to detail. Proficient in designing and implementing data visualization dashboards in PowerBI, facilitating data-driven decision-making. Skilled in SQL for data extraction, transformation, and analysis, with a solid foundation in database management. Excel in data cleaning, preprocessing, and feature engineering using Python, contributing to enhanced data quality and accuracy. Demonstrated ability to collaborate with cross-functional teams and communicate analytical findings to both technical and non-technical stakeholders. Seeking to bring my expertise in data analysis and visualization to a dynamic team where I can contribute to strategic decision-making and drive business success.

### **Skills Summary**

- Data Analysis: Two years of hands-on experience in extracting actionable insights from complex datasets. Proficient in PowerBI for creating interactive and informative data visualizations.
- Strong command of SQL for efficient data extraction, transformation, and analysis. Advanced skills in Excel for data manipulation, analysis, and reporting.
- Programming: Competent in using Python for data cleaning, preprocessing, and feature engineering. Possess a strong analytical mindset with attention to detail for accurate and meaningful analysis.
- Data Visualization: Expertise in designing and implementing data visualization dashboards to facilitate data-driven decision-making. Solid foundation in managing databases to ensure data integrity and accessibility
- Problem Solving & Collaboration: Adept at translating business requirements into data-driven solutions, contributing to strategic decision-making. Proven ability to collaborate with cross-functional teams and communicate analytical findings to diverse stakeholders.
- Communication: Effective communication skills, able to convey complex analytical concepts to both technical and nontechnical audiences. Machine Learning: Strong understanding and practical application of various machine learning techniques, including regression, classification, clustering.

#### <u>Experience</u> Data Analyst

### June 2022-present | Delhivery, Gurgaon

- Coordinated and managed the end-to-end logistics operations, ensuring timely and accurate delivery of packages to customers across diverse geographic locations.
- Oversaw the scheduling and routing of delivery vehicles, optimizing delivery routes to improve efficiency and reduce transit times by 8%.
- Monitored and tracked the movement of shipments using the company's tracking systems, providing real-time updates to customers and resolving any delivery issues promptly.
- Collaborated with cross-functional teams, including warehouse staff and customer service representatives, to streamline communication and improve overall operational efficiency.
- Hands on experience in implementing dashboard, data visualizations and analytics using PowerBI desktop and server.
- Interacts with business stakeholders to understand and clarify business requirements.
- Collecting data from clients and making recommendations for improvement.
- Analyzed data in SQL and prepared dashboards and storytelling in PowerBI.
- Experience on dashboards designing with large data values from various data sources.
- Conducted comprehensive data analysis using SQL queries to extract and transform data from various sources, ensuring data accuracy and reliability.
- Designed and implemented interactive dashboards in PowerBI, providing real-time insights into key performance indicators and supporting data-driven decision-making processes.
- Utilized Python for data cleaning, preprocessing, and feature engineering, resulting in improved data quality and increased accuracy of predictive models. Developed PowerBI workbook from multiple data sources using data blending.

# **Education**

MSc Mathematics (Pursuing) Mangalayatan University, Aligarh BSc Mathematics 2017 Sunrise University Alwar

# **Certifications**
