

SHAIENDRA SINGH BALYAN

Growth-oriented professional with a zeal to build career, targeting assignments in **Software Developer & Software Architect** with an organization of high repute in **IT Industry**

✉ shailendra.balyan95@gmail.com

☎ +91 8923251107

CORE COMPETENCIES

Software Development Lifecycle
Application Development Lifecycle
Requirement Gathering & Analysis
Troubleshooting and Debugging
Project Execution & Management
IT Infrastructure Management
Quality Assurance
Team Management

IT SKILLS

Programming Languages:.

ReactJs,JavaScript,HTML5,CSS3,BOOTSTRAP,XML,JSON,JQuery

Operating System: Windows Family

Tools: Visual Studio 2019,Jira,Azure,Git,Postman

SOFT SKILLS

PROFILE SUMMARY

- A competent professional offering over 5 years of experience in **Application Development, Software Development & Support.**
- Skilled in **ReactJS, JavaScript ,CSS,Bootstrap,HTML,Agile,Jira,Git**
- Highly skilled in end-to-end technical design, production support, deployment and maintenance of Web based applications
- Sound understanding of Software Development Lifecycle (SDLC) right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases along with implementation) to maintenance of proposed applications
- Technical expertise in Software Development Life Cycle entailing requirement analysis, design, development, testing and troubleshooting
- Pivotal in analyzing information system needs, evaluating end-user requirements, custom designing solutions and troubleshooting information systems
- Proven success in taking independent ownership of all technical aspects of application development lifecycle
- Successful track record in project execution, maintaining highest standards of quality & customer satisfaction
- Possess clear thinking from technology perspective with strong skills to identify functional needs and transform them into technology terms
- An effective communicator with excellent analytical / logical skills and skills to relate to the people at any level of the business and management

TRAINING

- Successfully completed Six Weeks training at DUCAT, NOIDA in 2020

CAREER TIMELINE

Since
Sep
2018

FORELSKET SOFTWARES PVT. LTD

WORK EXPERIENCE

Since Sep 2018 with Forelsket Software Pvt. Ltd. NOIDA as Software Developer.

Key Result Areas:

- Maintaining cordial relationship with the clients and gathering requirements for proper delivery of business features
- Coordinating with the QA team for requirement discussions and clarifications
- Communicating with internal/external clients to determine specific requirements and expectations; managing client expectations as an indicator of quality
- Creating and managing the estimates, project plan, project schedule, resource allocation and expenses to ensure that targets were reached
- Following the project life cycle methodology defined under the process framework; ensuring that customer deadlines were met within project budgets
- Interfacing with clients for gathering business needs, analyzing & reviewing business, functional and high-level technical requirements and finalizing technical / functional specifications and high level design documents
- Designing detailed technical components for complex applications utilizing high-level architecture, design patterns and reusable code, considering real time constraints, functional requirement & non-functional requirements
- Ensuring that best practices for coding, architecture, and security are employed across all teams consistently, and maintaining responsibility for the quality development of internal and external applications; setting up infrastructure for application release and support
- Providing post-implementation, application maintenance and enhancement support to the client with regard to the software application; ensuring all solutions are scalable, extensible & available from architecture stand point
- Managing timelines and resources (internal and external) within the software development lifecycle; acting as a point of technical escalation and resolution during the project lifecycle
- Maintaining technical integrity of project deliverables; ensuring all application development activities adhere to the guidelines set forth in application development SOPs

Project Executed:

Name of the project: PVA - Pricing Value Analyser

Period: Since Sep 2018

Environment: ReactJs, Javascript, JQuery, HTML5, CSS3, WebAPI, SQL Server.

Description: PVA keeps track of monetary assets flow across the educational unit managed by Institutions. it is a service host platform that involves management of client expenditures, Programs, Transactions, Subscriptions etc while performing transactional activities.

Name of the project: BMA – Bio Metrc Analyzer

Period: Since Nov 2021

Environment: .Net, C#, WebAPI, SQL .

Description: The Biometric Analyzer ensures to calculate the time spent by an employee on floor. It accepts the readings from biometric IOT sensor devices and encode that data into servers from where the system generates a relevant report associated with payroll.

EDUCATION

2019	B.Tech. (Civil Engineering) from Vivekananda College Of Technology and Management Aligarh(U.P.), Affiliated to A.K.T.U Lucknow
2014	12 th from JRSIC
2011	10 th from Gagan Public School Aligarh

PERSONAL DETAILS

Date of Birth: 26th February 1995

Languages Known: English, Hindi

Address: N5-1807 Jaypee Aman Sector 151 Noida,UP Pin 201310
